

LOW WASTE MATES

Here are some ways to connect with others and bring your mates on board to help you reduce your waste!

Get connected

Join some low waste groups or follow some accounts on social media to learn more about how you can reduce your waste and connect with an online community who are doing the same.

Have a party!

Get your friends on board by hosting a party where you swap old clothes, make your own low waste kit or watch a waste documentary to learn more about the topic together.

Share the low waste love

Share your progress and tips about how you are reducing your waste with others! It may spark their interest to encourage them to join you and give them someone to chat with about making the change.

Give the gift that keeps on giving

Make a reusable item to gift to a friend, or visit a second-hand store together to find something that will help them kick start their low waste journey with you!

Start a conversation

Talk to your friends and family about what you are doing to reduce your waste and why it is important to you. It may inspire them to join you in your efforts to make the planet cleaner!
